FAQs

1 What is CIL and what can it be spent on?

The Community Infrastructure Levy (CIL) is a charge on new development to help fund strategic and neighbourhood infrastructure in Westminster. This can include new or improved facilities for health, education, open spaces, sports and leisure, utilities and waste, transport and the public realm, and other social & community facilities.

Under CIL legislation, the neighbourhood portion must be spent on:

- the provision, improvement, replacement, operation or maintenance of infrastructure; or
- anything else that is concerned with addressing the demands that development places on an area. This could include things such as new open space, cycle/pedestrian routes, strategic transport infrastructure and community facilities.

2 How much is my area entitled to?

Each designated Neighbourhood Area has a say over 15% of the CIL receipts collected in its area (capped at £100 per council tax paying dwelling). This rises to 25% of receipts (uncapped) where a Neighbourhood Forum has successfully adopted a neighbourhood plan for the area.

The council will retain the neighbourhood portion of CIL but must consult with local communities on how to spend it, in line with local priorities. This application form will help the council decide how to spend this portion of CIL in your area.

3 What will the council agree to fund in my area?

The council has agreed a CIL Spending Policy Statement that sets out the criteria against which it will judge applications. To be approved for funding, projects must:

- Be in line with Westminster's priorities and policies – they must address the principles and policies set out in Westminster's development plan and other relevant strategies.
- Support growth – they should support the growth of the Neighbourhood Area and Westminster as a whole.
- Be supported by the community – they should have demonstrable support from a cross-section of the community.
- Be cost effective – they should represent value for money and be delivered in a timely manner.
- Be supported by infrastructure providers – they should be supported by the organisation who will be delivering the project, including the relevant council department.
